1 Comments: I am strongly opposed to nuclear waste being shipped to and stored at Yucca Mountain. I don't want my state to be known as a nuclear garbage dump. I don't think it should be in our state because we said NO to even making the trash! It might affect our number of people that come here. They might think that the water here is poisoned! One thing I've been puzzled about is, if the containers are so safe/spillproof why don't they keep it where it is!!
